

ArchiDMX™

DMX Control System

Applications

- Exterior Facade or Signage Lighting
- Bars
- Restaurants
- Lounges
- Pools & Spas
- Retail and Tradeshow Displays
- Portable Events

Dimensions

Self contained DMX control device for lighting in Architectural applications

ArchiDMX is ideal for applications such as restaurants, bars, exterior facade lighting, retail spaces, or any stand alone application where control of colour changing lights is desired.

Intuitive wall-mounted user interface provides instant playback of scenes and shows via colour changing buttons or infrared remote

Stores 64 scenes of 512 channels to allow for numerous lighting looks and complex shows

Wireless option reduces set-up time and permits multi-way operation with multiple wall stations

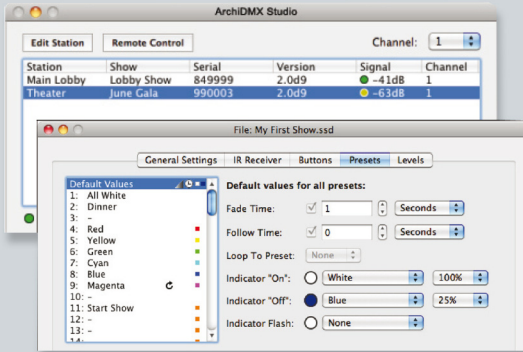

Can be programmed to operate in conjunction with an upstream DMX controller or console

ArchiDMX™

DMX Control System

ArchiDMX Studio Software

ArchiDMX Studio software (available for Windows and Mac OS X) allows one or more wireless ArchiDMX control devices to be easily managed and programmed via an intuitive desktop application.
