High Powered CAT5 Audio System A0302 Speaker to Line Level Converter

Channel Vision's **A0302** is designed to convert speaker audio to line level. It provides an ideal way to re-amplify whole-house audio that needs optimal power. Connect out to the Channel Vision A0240 40 Watt Stereo Amplifier or switch to mono mode making the A0302 perfect for feeding a powered subwoofer.

A0302

Features:

- Provides line-level output for re-amplification
- SUB mode allows a subwoofer to be added to a whole-house audio system
- Decorator-style design with screwless wall plate
- Fits standard single-gang junction box or low-voltage ring
- Easy-to-install

Specifications: (typical at 25° C)*

Maximum input power	100 Watts RMS
