

# Wireless Transmitter & Receiver

# 1-to-Unlimited Locations WA-321 & WA-361

The 1-to-unlimited wireless audio transmitter and receiver create a distributed audio system without running wires from one room to another. Whole house distribution can now be utilized without the mess of wires. The transmitter will accept line level or speaker level audio, making it easy to distribute signals to multiple locations simultaneously. Take advantage of our speakers and the 80 watt class D amp, A0240 for an unbelievable music experience.

| Features   | Benefits   |
|--|--|
| Wirelessly transmit audio up to 300ft.   | Retrofit jobs are no longer a challenge                                    |
| 8 channel frequency hopping technology   | Advanced technology to avoid interference resulting in crystal clear audio |
| Standard line-level inputs   | Loops audio directly from the receiver                                     |
| Speaker line-level inputs  | Strips speaker level to create a line level audio transmission             |
| 1-to-Unlimited (WA-321/361)  | One source to unlimited locations  |
| Transmit stereo audio, AM/FM, XM, PC, i Tunes®, i Pod® or MP3 music, or gaming consoles and TV's | Effortless instalation provides multi-room audio around the home           |

# Specifications\*

#### General:

Storage Temperature: -40 to +85° ( Input Voltage: 5 VDC @ 250mA

**Operating Temperature:** 0 to +55° ( **THD+N:** 0.7% Max

#### **Transmit and Receive**

S/N Ratio: 80db **Audio Latency:** 3.8 ms

**Operating Frequency:** 2400 MHz

Data Rate: 1.152 Mbps **Audio Sampling Rate:** 48 kHz **Channels:** 8 (user selectable)

### **Transmit**

Transmission Power: 8.5 dB

(9.5dB Max)

**Modulation Type:** GFSK **Channel Spacing:** 9 MHz Max. Audio Input: 2.6 Vpp Input Impedance: 20 k0hm

Max. Speaker Level in: 100 watts RMS

## Receive

**RX Sensitivity:** -85 dBm **Image Rejection:** 47 dBc Audio Output Level: 2.6 Vpp

**Audio Output Impedance:** 16 Ohms Frequency Response: 20-20kHz +/- 3dB Adjacent Channel Rejection: >45 dB
