- Aluminium / plastic enclosure

Description

The Wall Charging Station 7 is an optional accessories for wireless touch panel airCUE-7. It combines wireless handheld usage and wall usage of this touch panel. Put the panel into the wall charging station and charge battery. At the same time the touch panel can be used as wall installed device. The charging station uses two magnets to secure the airCUE-7. Power to the device is provided by standard power supply 12 VDC. The wall charging station is compatible with standard electrical wall boxes and it doesn't require installation of a special back box into the wall.

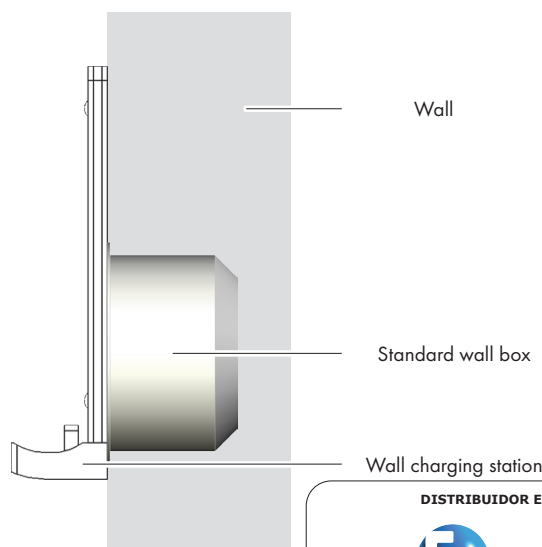

Application Note

The Wall Charging Station 7 is delivered without power supply. Use power supply delivered with the airCUE-7 or select suitable power supply regarding installation conditions and order it separately.
