

irCUE

CS0324

Description

The irCUE wireless hand-held remote control panel is a compact infrared transmitter with a distinctive black plastic / wood and stainless steel case. Supplied in three versions of wood - mahogany, white birch and oak - and two versions of plastic, the irCUE is designed to blend even with the most critical environments. Providing 33 dedicated buttons, the irCUE remote control is prepared to fit perfectly in your hand. It is the ideal solution for the control of audio, video and lighting in boardrooms, conference rooms and homes. irCUE is charged by the supplied docking station (with external power supply).

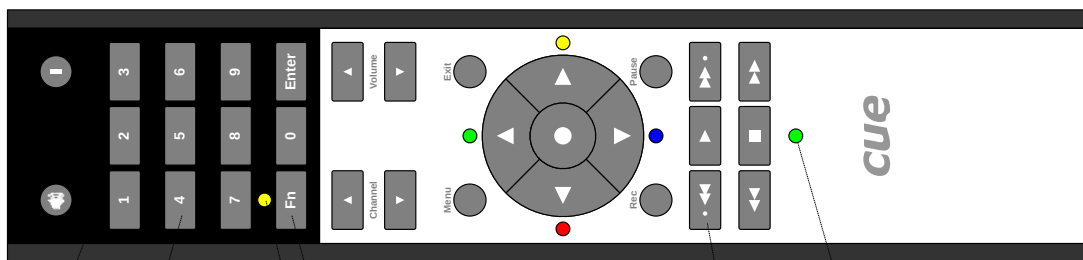

Addressing

The ADDRESS of the irCUE is stored in internal flash memory. For modification of ADDRESS see user manual.

The ADDRESS can be set in the range 0 to 47.

Default ADDRESS is 0.
