

the **NEW**

Flat panel ceiling mounts

Not only the flat panel itself is an important element in a professional installation.

Installation speed, adjustment features and stability of the accessories are important features.

Audipack introduces the new generation ceiling mounts for flat panels.

Audipack®

It's great to have solutions...

Flat panel ceiling mounts

with **VESA 75 & 100**

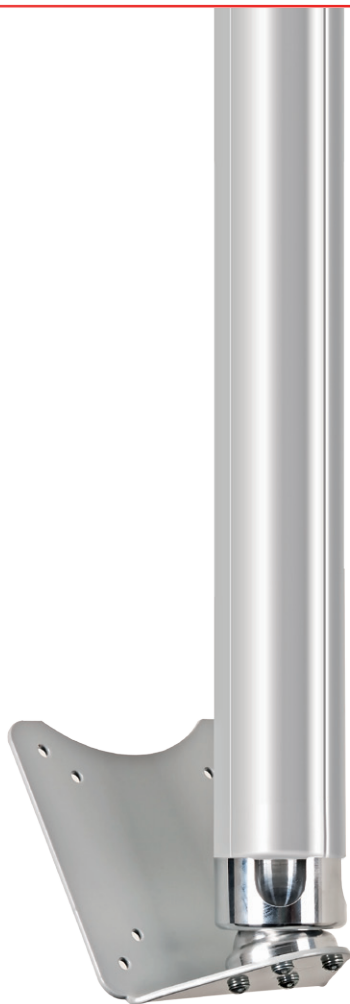

A very elegant solution,

for installing small LCD screens with VESA 75 & 100 to the ceiling with or without suspended ceilings.

The slim and minimalistic designed ceiling mount hides all needed cables through the tube.

With the special ball-joint the screen is easy to aim and adjust towards the viewer.

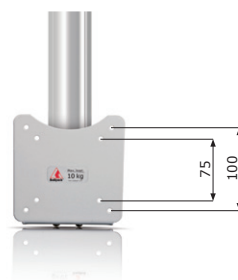

With the standard available options it is very easy to adapt the mount that meets your installation specifications (see page 5).

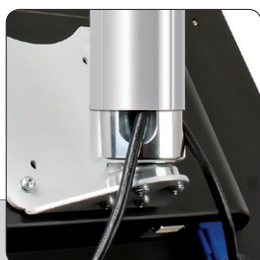

CMV1 series

- ▲ **Max. load 10 Kg**
- ▲ **Standard VESA 75 and 100 interface**
- ▲ **Max downwards angle 27 degrees**
- ▲ **Standard colour grey RAL 9006**

Standard VESA 75 and 100 mounting interface

Neatly installed cables through the tube set

Quick installation with bajonet feature (telescopic only)

Flat panel ceiling mounts

with **VESA 100 & 200**

For larger screens,

or screens with a larger mounting pattern the ceiling mount set is also available in a VESA 200 version.

Even so elegant as the CMV1 product line, only suitable to install the larger screens maintaining the minimalistic design and appearance of the complete set.

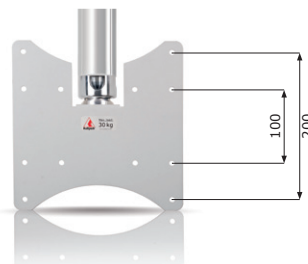

Also this product line is very easy to adapt with the standard available options (see page 5).

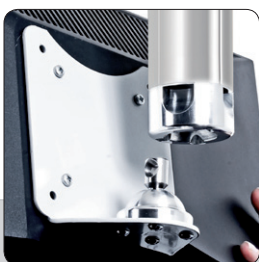

CMV2 series

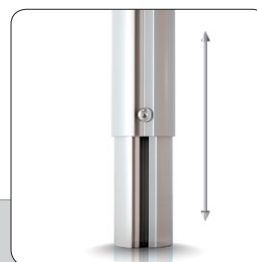

- ▲ **Max. load 30 Kg**
- ▲ **Standard VESA 100 and 200 interface**
- ▲ **Max downwards angle 27 degrees**
- ▲ **Standard colour grey RAL 9006**

Standard VESA 100 and 200 mounting interface

Quick install and release ball-joint with precision line-out

Perfect adjustment with telescopic feature (telescopic only)

Flat panel ceiling mounts

the **FCM** series

The FCM series ceiling mounts offer a more extended product line in comparance with the CMV line.

This specific installation line is the perfect solution for professional installations in any kind of situation and environment.

A durable and rigid product that offers flexibility in using single or multiple screens. Even the largest screens are applicable with this product line.

Benefits are installation speed, flexibility and a professional appearance.

With the extra available options camera's, extra equipment and a power supply can easily be installed and hidden (see page 5).

FCM series

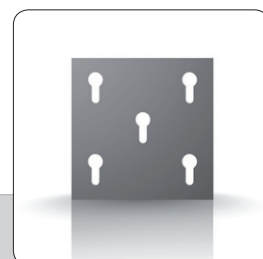

- ▲ Max. load 60 Kg (FCM), 2 x 60 Kg (FCMD)
- ▲ Available in different lengths
- ▲ Multiple screen installation
- ▲ Available in grey RAL 9006 and black RAL 9005

Neatly installed cables
through the tube set

Quick installation with
bayonet feature

L&S 5 mounting interface

the **FCMD** series

Back to back solutions

The FCMD series gives you standard the flexibility to mount 2 flat panel screens per height position in back-to back configuration with the L&S5 mounting interface.

With the Audipack Lock & Secure (L&S) installation interface any brand and type of screen or monitor can be installed without using tools while using an Audipack universal UFPRO or brand related monitor mount.

If needed this unique building concept allows you to install even more than just one set of screens. By simply adding separate available options the ceiling mount set can handle almost any configuration.

FCMD series

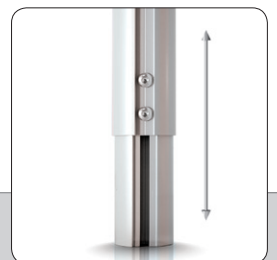

FCMD with ET extension tube and extra FPHD mounting head

20 degrees angle adjustment

Standard lockable

Perfect adjustment with telescopic feature (telescopic only)

Flat panel ceiling mounts
