

MR 110 G / MR 110 S

Garden speakers

MR 110 G

MR 110 S

These 2 speakers allow to be integrated into an outdoor facility thanks to its size, shape and color that mimics a rock garden (**MR 110 G** grey color and **MR 110 S** sand color).

They feature a 8" woofer and a tweeter for a 2-way system. They allow installation in both a low impedance (8 Ω) and line voltage of 100V.

For line voltage, they include a line transformer with 4 power positions: 3/7.5/15/30W.

Both the output power selector and cable entry are located at the bottom, hiding their presence and integrating the speaker as a decorative element.

Features

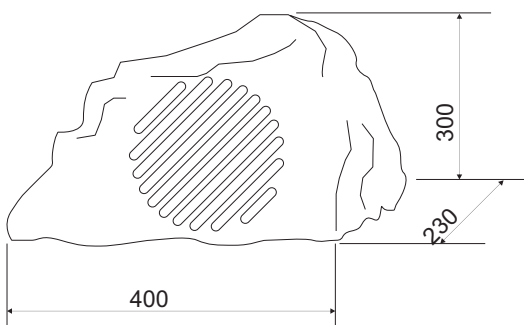

- Garden speakers
- 2 models available:
 - MR 110 G** (grey color)
 - MR 110 S** (sand color)
- 8" woofer + TWT
- For low impedance (8 Ω) installations.
- For 100V line installations.
- Line transformer with 4 positions: (3/7.5/15/30W).
- Sensitivity: 89 dB
- Crossfade frequency: 4.5 kΩ
- Dimensions: 400 x 300 x 230 mm
- Weight: 5,4 kg
