Should the re be any, consult your dealer and do not use the device.

SAFETY INSTRUCTIONS

This device has left our premises in absolutely perfect condition. In order to maintain this condition and to ensure a safe operation, it is absolutely necessary for the user to follow the safety instructions and warning notes written in this user manual.

Important: Damages caused by the disregard of this user manual are not subject to warranty. The dealer will not accept liability for any resulting defects or problems.

If the device has been exposed to drastic temperature fluctuation (e.g. After transportation), do not switch it on immediately. The arising condensation water might damage your device. Leave the device switched off until it has reached room temperature.

endanger your own and the safety of others!

Operate the device only after having familiarized with its functions. Do not allow any operation by persons who do not know the device well enough. Most damages are the result of an unprofessional operation!

Please consider that for safety reasons unauthorized modifications to the device are forbidden!

INSTALLATION INSTRUCTIONS

1. Experiment with the location of your speaker. Once you have determined the location for the best music coverage, place your speaker on firm ground.
2. Run the rubber jacketed cable to your amplifier/receiver by the shortest route. If additional cable is need, we recommended 18/2 rubber jacket cable.
3. Bury the cable at least 4" underground to avoid damage due to regular yard maintenance.
4. Route the cable to speaker outputs. Connect one line to (+) and the other to (-)
